

Small changes,  
big differences.

## **Triple P Positive Parenting**

### **Have a positive learning environment**

Children need a supportive, nurturing environment to develop their skills

There are many ways for parents to create a positive learning environment

- spending short but frequent amounts of quality time with them;
- speak nicely to them;
- Ask them about their day and take time to listen to their stories;
- be affectionate;
- use descriptive praise by pointing out the actions that you liked and letting them know you appreciated it; and
- When your child comes to you with a question prompt them to talk about it and find the answer, instead of just telling them the answer. This is called incidental teaching.
